

## About Me

A skilled front-end developer with almost 3 years of experience in HTML, CSS, JavaScript, and various frameworks. Recently completed an MSc in User Experience Design at Kingston University London. Seeking employment as a front-end developer to further enhance my career in web design and development, utilizing my newly acquired expertise in UI/UX design.

# Ami Rana

Front-end Developer | UI/UX Designer

## Education

### MSc User Experience Design

January 2022 - January 2023

Kingston University London, United Kingdom

- Studied various design methods such as lean UX, Stanford design thinking model, participatory design, conversational design, emotional design, and service design.
- Explored research, design, prototyping, and testing for emerging technologies including the Internet of Things, Augmented/Virtual Reality, Artificial Intelligence, and Cybersecurity.
- Gained proficiency in usability testing, and prototyping of single-user interactions with web services and applications via the desktop, with a specific emphasis on information-seeking and shopping.

### Master of Computer Applications (MCA)

June 2014 - June 2017

Parul Institute of Engineering & Technology,  
Vadodara, Gujarat

- Developed a good foundation in programming languages, software development, database management, and computer networks.
- Acquired knowledge in software engineering principles, data structures, algorithms, and system analysis.
- Engaged in coursework focused on emerging technologies and trends, including cloud computing, mobile application development, and data analytics.

### BSc Infrastructure Management System (IT)

June 2011 - June 2014

Sikkim Manipal University, India

- Learned a basic understanding of hardware & networking, customer relationship, and organizational behavior.
- Studied cloud computing, virtualization, database and mail server administration, and storage management.

## Professional Experience

### Front-end Developer

May 2021 - November 2021

CodeCaste Pvt. LTD. | Remote, India

- Created user-friendly web pages from supplied design mockups.
- Built pixel-perfect and mobile-friendly websites.
- Optimized the websites for maximum speed and scalability.
- Worked on standard WordPress projects independently without much leverage from the backend team.
- Collaborated with CTO to discuss project complexity and timeline.
- Collaborated with QA for debugging and testing.

## Certification

---

- Networking (GIMS) certification course at IIHT (2014)

## Testimonials

---

"Ami had a challenging job of changing the script of an existing WordPress theme, She did everything how I wanted it and was great to work with! I will definitely work with her again on future web projects"

**- A client on PPH (People per hour)**

"She was very prompt in making all the changes, finding the right plugins and figure out the best way to get the job done."

**- Shruti Rustagi, a client on Upwork**
